Sprint Review
21/9

What have we done?
None of the product backlog entries have fully been completed.
We have added AndEngine and Artemis Entity System Framework into our project.

What went well?
We have made up our minds regarding the core architecture (Entity component)

Product Owner time estimation
The world is estimated to be completed before monday (24/9).
The ball movement and walls are to be completed before friday (28/9)
